You will be assured of quality bulbs, grown specially for the wholesale trade from young, vigorous stock; high-crowned, true-to-name, up-to-grade, clean, healthy and thrips-free.

We have marked on this list such varieties as are recommended for forcing. It is our suggestion that you use only first size bulbs for this purpose. For best results plant after January 15th.

For planting in cold frames either first or second size bulbs should be used. Many successful florists use third size bulbs for main crop outside, with second size bulbs for extra early or extra late.
